Bookie

Receives and persists updates to a cache as the result of receiving Google Calendar Push notifications
Sends clients push notifications about room changes through AWS SNS service

Ruby on Rails
PostgreSQL
Git
Travis CI
AWS SNS service
Google Calendar API
Google push notifications

Look-Listen

2013-08-12 - 2014-08-08

Lead developer on three Rails projects, two of which have Ember front ends.
Learn about and implement many technologies to solve real world problems.
Grew to rely on the use of basic language constructs (POROs and POJOs) to build systems from the ground up.

GE online marketing tool

Illustrates the potential benefits to clients in real time
Uses databindings and D3.js for immediate results
Produces reports and emails them as PDFs

Ruby on Rails
PostgreSQL
Git
Ember.js
D3
AWS S3

Flywheel

Aggregates and stores data from
Transforms disparate sources and forms of data into a unifying table
provides compiled reports of the data in a restful API

Ruby on Rails
PostgreSQL
Git
Redis
MongoDB
Multiple APIs

Go Bike Go

Ticketing system for a series of bike shops to keep track of customers and the work required

Ruby on Rails
Postgres
Git
jQuery

SmartBIM

2013-01-25 - 2013-08-06

3 Rails devs building and maintaining 3 Rails apps
Our main product was an online library used to find 3D models for Revit
This position introduced me to a large, complex system with multiple apps operating together

Ruby on Rails
elasticsearch
Postgres
Git
jQuery
