### Georgia State University

Masters of Neuroscience  
3.48/4.0

8/09-1/12

Bachelors of Science  
3.6/4.0  
Magna Cum Laude  
honors distinction

8/06-5/09

## WORK HISTORY

### Big Nerd Ranch

9/2014 - present

I have a lot of respect for the Developers at Big Nerd Ranch as well as the company as a whole. I had a lead developer role in my last position and one thing it taught me is that I have a lot to learn. I hope to fill in the gaps and become a more rounded developer through this experience.

Describe Bookie

### Look Listen

1/2013 - 9/2013

I was the lead developer on three three Rails projects, two of which have an Ember front end. While working there I grew considerably as a programmer, as I had to learn about an implement many technologies to solve real world problems. I grew to rely on the use of basic language constructs (POROs and POJOs) to build systems from the ground up.

## GE online marketing tool

Rails  
Ember  
D3  
AWS  
S3

This is was an inhouse tool for GE used to interact with potential client to undestand their needs regarding specific online services.

## Flywheel

Rails  
Ember  
D3  
Redis  
Redis  
multiple  
APIs

Write about this

## SmartBIM

1/2013 - 9/2013

I was a part of a team of 3 Rails devs building and maintaining 3 Rails apps. Our main product was an online library used to find 3D models for Revit. This position introduced me to a large, complex system with multiple apps operating in concert.
